Here we will show how to perform a basic service on a King quad 750. We will include an oil / filter change, and differential lubricant change. We will also service the rear drive lubricant. It should be noted that most ATVs take a 75W-90 or 80W-90 drive lubricant. The Suzuki 750 DOES NOT take a gear lube in the rear end.

- The spark plug itself can be bad. It can even spark when tested in the open air yet fail when under combustion chamber pressures, if there is a crack and path of conductivity along the inside porcelain. One of our members had this very thing happen to his King Quad, spark plug tested fine outside against a ground but spark failed under pressure.
