100 Power Tips For FPGA Designers: Stavinov, Evgeni ...

In many ways 100 Power Tips For FPGA Designers is an unusual book, not the least that it's a book that will provide something of interest to almost every reader (yes, this is unusual – I see so many books that hold no interest for me at all).. Actually I must admit to feeling a little foolish, because – from the title – I had sort of expected to see annotations in the text saying ...
