1915a Manual

1915A and 1925A incubators are provided with a plastic cap for the access port on the left side of the incubation chamber. Always leave this cap in place, except when introducing probes into the chamber for temperature calibrations or verifications. Removing the cap during normal operations can adversely impact temperature stability and uniformity.

SIGNATURE OPERATING MANUAL

VWR 1915A Reach In Incubator Cambridge Scientific ID #: 14811. An independent, secondary temperature controller offers the added security of over temperature protection. The chamber floors are reinforced to support roller apparatus or shakers. The air jacket design and heated outer door allows for uniform heat throughout the incubators.
