The 1989-91 Audi 100/200 came with a factory installed alarm system which has a starter solenoid circuit interrupt if the car has been broken into after being locked. The system uses an Anti-Theft relay to interrupt the starter solenoid signal from the ignition key.

In some cases on the 1990-91 Audi 100, this can cause intermittent stalling on deceleration. As shown below, check the black connector pin #10 and the pin directly across from #10 as it supplies the ground for the turn signal and high beam indicator lights.

Audi 100 2.3E 1989

The C3 Audi 100 was sold in the United States badged as an Audi 5000 ... until the “unintended acceleration” nightmare nearly killed Audi in North America and the company decided, after a few years of abysmal sales numbers, to go ahead and call this car the 100 over here. Because so few were sold, the 1989-1990 Audi 100s are very, very rare these days.

1990 Audi 100 Quattro Sedan - Junkyard Find

The 1984 Audi 5000 Junkyard Find reminded us about the nightmare faced by Audi after 60 Minutes framed the 5000 as a an unintended accelerator in 1986. Audi sales took a real beating in the late 1980s, but some 5000s (renamed the 200 in an attempt to banish the stigma of a car whose greatest sin was the proximity of the brake pedal to the gas pedal) were bought in 1989.

Audi 100 - Wikipedia

1989 Audi is among the first to introduce a direct injection diesel-powered car in the 100 2.5 TDI 120bhp. 1989 Audi
