The Ford 385 engine family is a big block V8 designed by Ford Motor Company and produced from 1968 to 1998. The engine family consolidated two previous V8 engine designs, replacing the MEL engine outright along with several engines of the medium-block FE engine family. In cars, the 385 saw use in both full-size cars and intermediates; it also saw use in personal luxury cars and muscle cars.

460 Ford Wiring Diagram??? - Club Hot Rod Forums
The Ford 460 V8 engine was part of the "Ford 385" series of V8 engines which included the Ford 429 V8 that was used by Lincoln. These two engines proved to be the last of Ford's V8 big block engines but are still quite popular today among engine enthusiasts. Beginning in 1968, the Ford 460 was manufactured at Ford's plant in Lima, Ohio.
