The Ford FCSD aftermarket remote entry system comes with a starter interrupt that should be disabled on PATS equipped vehicles. If the starter interrupt is active when the ignition is turned to RUN or START, refer to the Perimeter Alarm section of the workshop manual.

Ford Explorer Questions - Anti Theft light blinking fast ...

SecuriLock, also known as Passive Anti-Theft System (PATS), is Ford Motor Company 's immobilizer technology. In 1996 the technology was introduced on select models of Ford, Lincoln, and Mercury vehicles. The keys have a radio frequency transponder embedded in the plastic Head of the key. The transponder has an electronic identification code.

1995 Ford Expedition Pats System

The passive anti-theft system (PATS) is installed on every Ford Expedition at the factory. While some erroneously call this system the factory alarm, it really is not an alarm system. The PATS system will arm itself if someone attempts to start the vehicle with anything other than the PATS key.
