### HOW TO: Acura MDX Transmission REMOVE

A Acura transfer case sends power from the transmission to the front and rear axles, enabling the wheels to spin. It also synchronizes the difference between the rotation of the front and rear wheels, which is necessary since the front and rear tires don't turn at the same speed if they're of differing sizes.

#### **Acura TL Transfer Case Bearing - Guaranteed Genuine Acura ...**

The Acura RDX is equipped with a transfer case, which is designed to get power from the transmission and give power to both your front axle as well as rear axle. Acura owners tend to overlook the transfer case fluid, and even though it's not meant to be replaced as often as the engine oil, you should replace it as often as 30,000 miles.
