MasterMathMentor.com

A slope field shows the direction of flow for solutions to a differential equation. What is a Slope Field? A slope field is a visual representation of a differential equation of the form $dy/dx = f(x, y)$. At each sample point (x, y) , there is a small line segment whose slope equals the value of $f(x, y)$. That is, each segment on the graph is a representation of the value of dy/dx .
