2008 Jeep Wrangler Reliability - Consumer Reports

Has anyone else had any engine issues with their 3.8L JK? The original engine had a problem with the oiling system and had oil starvation, leading to total engine failure. I replaced the engine with a new one and there was a problem with a gasket on the engine as well as some issues with the way it matched up to the drivetrain. Now I have to scrap that engine and am on my 3rd engine.
