## **How To Reset Check Engine Light: Follow These 4 Easy Ways!**

Image from: GoranH It may sound obvious but a loose/faulty gas cap can actually set the check engine light on. Some vehicle models – including the Honda CR-V – have a separate fuel cap warning indicator on the dash.. Either way, if the issue is a loose gas cap, even after fixing it, you may need to drive for about 50 to 100 miles (80 to 160 km) before the check engine light resets.

I had a quick ride yesterday on my FLSTFI. While riding, the check engine light went ON for few seconds then OFF... 5 min. later, it happened again! The bike look so normal and it has less than 100 miles since the last service. Any idea on what could be the reason?

### **Check engine light on then off | V-Twin Forum**

You may have heard that Harley has boosted engine output between 5 and 7 percent, which might make you think those gains are all due to liquid-cooled heads. But that's not entirely accurate. The engine improvements which came with Project Rushmore include new cam profiles with higher lift and duration, which aids overall performance.
