It has a 1977 Johnson 85hp motor that I'm trying to get a repair manual for before I start going through it. The problem I'm having is the model number on the motor doesn't match any of the manuals I can find. The model number on the ID tag on the mounting bracket is 85ETLR77S. The only models I find for manuals is the 85ETL77 and the 85TXLR77.
