The Chevrolet "big block" engine is a term for a series of large displacement 90° overhead valve V8s that were developed and produced by the Chevrolet Division of General Motors from the 1950s until 2009.. Chevrolet had introduced its popular small block V8 in 1955, but needed something larger to power its medium duty trucks and the heavier cars that were on the drawing board.

The Chevrolet Suburban is a full-size SUV from Chevrolet. The name started in 1934 for the 1935 U.S. model year, making it the longest continuously used automobile nameplate in production. It has traditionally been one of General Motors' most profitable vehicles. The 1935 first generation Carryall Suburban was one of the first production all-metal bodied station wagons.
