Ford 9n - Steiner Tractor Parts

The TO-20 uses a Continental Z-120 motor. Ford produced their own engine for the 9N. The carburetors are different, too: The TO-20 uses a Zenith, and the 9N has a Marvel carburetor. Some people call the Ford 9N tractors a "Ford-Ferguson" tractor. While I know what they're talking about, this technically isn't the name of any model of ...

Ford N-series tractor - Wikipedia

Ford 8N 9N 2N Fleetguard Oil Filter LF574 Also fits Some Massey Ferguson Tractors with Continental Gas Engine \$15.75 \$ 15 . 75 Only 2 left in stock - order soon.

Alternate Engines in Fergies? - Ferguson Enthusiasts of ...

9n Ford Ferguson Engine Oil

The Ford 9N is equipped with a 2.0 L four-cylinder gasoline engine and sliding gear transmission with 3 forward and 1 reverse gear. The Ford 9N utility tractor used the Ford engine. It is a 2.0 L, 1,961 cm 2 , (120.0 cu-in) side-valve, four-cylinder, natural aspirated gasoline engine with 81.0 mm (3.19 in) of the cylinder bore and 95.0 mm (3.74 in) of the piston stroke.

Amazon.com: ford 9n oil filter

Some of the noticeable differences from the 9N/2N was the change in lugs from six to eight in the rear wheels, scripted "Ford" logo on the fenders and sides of the hood (reportedly this scripting did not actually start until late 1950) and finally, the absence of the "Ferguson System" patch which was no longer displayed under the Ford oval (even though the tractor still used Fergusons three ...

9n Ford Ferguson Engine Oil File Type

Rebuilding the engine so it again has the proper bearing clearances and pump gear clearances is the only true fix. We also hear about newly rebuilt engines that have low oil pressure. A proper rebuild of the engine and pump will result in a running oil pressure of 40-45 PSI cold and at least 35-40 PSI hot.

TractorData.com Ford 9N tractor engine information

I've had my 9N for 15 years and consider it to be in great shape for a 64 year old tractor. I started using non-detergent, but ran out of a source for it. I then switched to a 15W-40 low detergent oil that I bought from a local Ford tractor dealer. He noted that most owners use straight weight or multi-weight detergent oil.

Ford 9N utility tractor: review and specs - Tractor Specs

Engine Four cylinder L-head. 3.187 inch bore x 3.75 inch stroke. Piston displacement- 119.7 cu. in. Compression ratio- 6 to 1. Horsepower Maximum horsepower at belt pulley- 23.87. Low Oil Pressure - Ford Fordson Collectors Association

Your gas engine has a compression ratio of anywhere from 5:1 to 8:1 while a diesel engine runs from 13:1 up to 18:1 and so needs to use only a premium oil to protect it better. The diesel service oil also needs to be higher detergent in order to suspend the carbon particles inherent to their operation.

Yesterday's Tractors - What Oil Should I Use?

The Ford N-series tractors were a line of farm tractors produced by Ford between 1939 and 1952, spanning the 9N, 2N, and 8N models.. The 9N was the first American-made production-model tractor to incorporate Harry Ferguson's three-point hitch system, a design still used on most modern tractors today. It was released in October 1939. The 2N, introduced in 1942, was the 9N with some improved ...

9N/2N Specifications - Tyler's Ford-Ferguson 9N Web Site

The 9N was powered by a 24hp, 119.7 cu in four-cylinder engine derived from half of the 239 cu in Ford flathead V-8 truck powerplant. It shared many parts with its parent engine, including pistons, rods and bearings, as well as many gaskets.

9N FORD The Antique Ford Tractor Site, 8n, 2n, 9n, ford ...

I learned to drive in a Model A Ford, which was designed with a non-pressurized oiling system - the pump simply pumped oil up into the valve chest and it drained into the mains. Rods were lubricated by dipping into a pan. My point is that the engines in a 9N/8N are direct descendants of a Model A.
