Sittman and Pitt of Brooklyn, New York developed a gambling machine in 1891 that was a precursor to the modern slot machine. It contained five drums holding a total of 50 card faces and was based on poker. The machine proved extremely popular, and soon many bars in the city had one or more of them. Players would insert a nickel and pull a lever, which would spin the drums and the cards that ...

*Slot machine - Wikipedia
Indeed, in *Addiction by Design: Machine Gambling in Las Vegas*, Massachusetts Institute of Technology anthropologist Natasha Schull argues that mechanical rhythms that lull players into a trance-like state are deliberately built into electronic gambling machines. In what Schull calls the "machine zone," gamblers*

Read Book Addiction By Design Machine Gambling In Las Vegas Natasha Dow Schull

Smartphone addiction is considered to be rooted in Internet addiction due to the similarity of the symptoms and negative effects on users. Internet addiction is defined as an impulse control disorder, characterized by pathological Internet use (Goldberg, 1996; Young, 1998). Smartphone addiction could be categorized as a behavioral addiction, such as Internet addiction.
