Service information . BILSTEIN Technical Center - The official Bilstein Shock Absorber shop in the US offering complete rebuild of most A.M. dampers and customized valving of your aftermarket dampers for motorsports use.

AGX - KYB Americas
Since the shock controls the motion of the spring, increased spring rates require more rebound damping for control and that is one of the reasons why KONIs are rebound adjustable (and some are double adjustable). Using higher rate springs with OE or soft shocks will very quickly overcome and wear out the shocks.
