Ages and Stages of Numeracy Development / Scholar's Choice ...

The transition between young childhood and young adulthood is an exciting period of self-discovery and development. Between the ages of 7 and 16, children go through 3 distinct stages of child development: middle childhood, early adolescence and middle adolescence 1 2. Throughout these formative years, children gain self-esteem and a sense of identity, experience dramatic physical changes and develop interests and abilities that can last a lifetime.
