Technical support - Services - Airbus
The Aircraft Flight Manual or Company Operations Manual must contain the procedures and instructions required for the avoidance of controlled flight into terrain, including limitations on high rate of descent near the surface, as well as detailing abnormal and emergency procedures.

The Use of Enhanced Ground Proximity Warning System (EGPWS) ...
The Honeywell Enhanced Ground Proximity Warning System (EGPWS) reduces the risk of controlled flight into terrain by providing flight crews with timely, accurate information about terrain and obstacles in the area. The system uses various aircraft inputs and an internal database to predict and warn flight crews of potential conflicts with obstacles or terrain.
