### Ch. 1 Introduction - Intermediate Algebra 2e | OpenStax

The expression  $9 + 8$  represents a single number (17). This expression is a numerical expression, (also called an arithmetic expression). The expression  $9 + x$  represents a value that can change. If  $x$  is 2, then the expression  $9 + x$  has a value of 11. If  $x$  is 6, then the expression has a value of 15. So  $9 + x$  is an algebraic expression. In the next few examples, we will be working solely with ...
