What's the Difference Between the Amazon Echo and Echo Dot?

The Amazon Dot is a smart speaker that packs all the technology and functionality of the original Echo into a smaller package. It's Amazon's best-selling smart speaker, primarily due to its low entry cost. Dot provides access to the Amazon virtual assistant Alexa, which plays music, creates shopping lists, provides weather reports, and a lot more. The built-in speaker isn't as good as the ...

Earlier this year, Amazon expanded their stable of Echo products to include the Echo Dot, the tiny sibling of the bigger Echo speaker. And now, before the year is even over, the company has shipped a newer, cheaper version of the Echo Dot. Let's take a look at the similarities, differences, and when and where you would want to use each product.
