Viveka Velupillai, An introduction to linguistic typology ...

Linguistic typology (or language typology) is a field of linguistics that studies and classifies languages according to their structural and functional features. Its aim is to describe and explain the common properties and the structural diversity of the world's languages. Its subdisciplines include, but are not limited to: qualitative typology, which deals with the issue of comparing ...

An Introduction to Linguistic Typology by Viveka ...

"Linguistic typology took off in its modern form with the ground-breaking research of Joseph Greenberg, such as, for example, his seminal paper on a cross-linguistic survey of word order leading to a series of implicational universals (Greenberg 1963). . . .

(PDF) An Introduction to Linguistic Typology, Viveka ...

The introduction to typology that I presented in North Dakota was embedded within a course that also presented a formal grammatical framework, so I felt it important to stress what typology has in common with the sort of syntactic theorizing that has come to dominate the linguistic world, particularly in the United States.
