Male Reproductive System Information | Cleveland Clinic
The ovaries are the female gonads (see Figure 1). Paired ovals, they are each about 2 to 3 cm in length, about the size of an almond. The ovaries are located within the pelvic cavity, and are supported by the mesovarium, an extension of the peritoneum that connects the ovaries to the broad ligament.

Anatomy Pictures and Information

The female reproductive system is one of the most vital parts of the human reproductive process.

Although a man is needed to reproduce, it is the woman who incubates the developing fetus and delivers the child into the world. Females are born with a large number of potential ova (female sex cells, also called egg cells).
