equations by completing 21 equations. This worksheet includes an answer key.

Equations | The Cavalcade o' Chemistry

Balancing chemical equations is a math-like skill that can be achieved through repetitive practice. Start out with simple chemical equation and gradually build to greater difficulty. Often students need to see the process many times until an 'ah-ha' moment occurs. I first teach the concept of balancing chemical equations (see video below).

Balancing Chemical Equations Worksheet | Chemical equation ...

The way that we balance equations is to write coefficients in front of the chemical formulas in an equation. These coefficients multiply the number of atoms of each element in these formulas, so if you see a 4 in front of water, you'll know you have four hydrogen atoms and two oxygen atoms.
