Well, Digital media is one of the key elements of computer systems now. Being a Linux user, I try to perform most of the operations through the terminal using commands. The majority of the tasks in the terminal are text-based; I can read, edit text files, but I had no idea how to display images in the terminal.

How Do I Display an Image in a Linux Terminal? - Linux Hint

Grade 8 » Introduction Print this page. In Grade 8, instructional time should focus on three critical areas: (1) formulating and reasoning about expressions and equations, including modeling an association in bivariate data with a linear equation, and solving linear equations and systems of linear equations; (2) grasping the concept of a function and using functions to describe quantitative ...

One thing that's easy to miss is page numbers. The page number restricts the height of the final image so it's best to leave it out. An easy way to do that is to use the empty page style. What I do when doing images for this place is to have a document a bit like:
`\documentclass{article} \thispagestyle{empty} \begin{document} Hello.`

Compile a LaTeX document into a PNG image that's as short as possible "Mad Money" host Jim Cramer rings the lightning round bell, which means he's giving his answers to callers' stock questions at rapid speed.
