Simultaneously, global war and governance have emerged as significant objects of ethnographic and theoretical interrogation. This conference explores Anthropology's relationship to the United States' global projection of its power, while simultaneously mounting an anthropological inquiry into the nature of that power and of the changing world in which it operates.

Anthropology and Global Counterinsurgency

Anthropology and Global Counterinsurgency is the title of a very interesting conference that is about to take place at the University of Chicago. It will be extremely disappointing if the conference organizers and/or participants decide not to make their papers available on the Web, given both the timeliness of the conference and the fact that papers published in locked down (closed access) sources will likely have a marginal impact on what has become a very public debate.
