Architecting on AWS (Membangun Arsitektur Cloud di AWS)

In Compose the UI is immutable—there's no way to update it after it's been drawn. What you can control is the state of your UI. Every time the state of the UI changes, Compose recreates the parts of the UI tree that have changed. Composables can accept state and expose events—for example, a TextField accepts a value and exposes a callback onValueChange that requests the callback handler to ...
