Give us a call whenever your ongoing marketing demands require the best exhibit service your promotional dollars can buy.

Arista Networks Configuration Guide

Static / Model Configuration ¶ The Arista EOS static configuration files are located in the etc/configs/eos directory. The file all.conf, if exists, will be first applied to all device models. Then if a model specific file exists it will be applied. The model value is taken from the output of "show version", the JSON field modelName.

Arista EOS Setup Guide — Aeon-ZTPS 1.5.4 documentation

Arista EOS configurations use a simple block indent file syntax for segmenting configuration into sections. This module provides an implementation for working with EOS configuration sections in a deterministic way. This module works with either CLI or eAPI transports.
