Artificial intelligence (AI) is the ability of a computer program or a machine to think and learn. It is also a field of study which tries to make computers "smart". They work on their own without

Where To Download

being encoded with commands.
John McCarthy came up with the name "artificial intelligence" in 1955.

Artificial intelligence - Simple English Wikipedia, the

Machine Learning
(ML) is a subset
of Artificial
Intelligence. ML
is a science of
designing and
applying
algorithms that
are able to
learn things
from past cases.
If some
behaviour exists
in past, then

Where To
