ASTM F1930 - 00 Standard
Test Method for Evaluation
of ...

ASTM F1930 ASTM F1930
specifies a standard process
for measuring the average
predicted body burn of a
fabric based on a laboratory
flash fire simulation. It
tells us how to perform a
manikin test, but not what
to test for. NFPA 2112 sets
the pass/fail criteria at
<50% 2nd and 3rd degree burn
in a 3 second exposure.
