2000 Audi TT Convertible Roof will not go up. The electronics no longer appear to work. When i press the button to open or close the roof, the sound which normally accompanies the movement provides the feeling that not enough energy is being generated to lift the roof up when it is closed. to open it, sometimes, with a little push, enough energy can be generated to open. for the record, i have ...

Audi TT Roadster Quick reference guide - VAG Links

The TT has an emergency release for the fuel cap and the boot lid. I'd expect there is an emergency procedure for the roof too. Must be described in the manual. It requires a special tool (that may come with the car, I don't know). And from what I understand, the mechanism is a bit fragile. But since I don't own one, I can't help in detail.
