Audioengine A5+ review: Audioengine A5+ - CNET

If you've read the specifications for the Audioengine 5+ speakers, you'll notice that the left speaker is the Master making the right the Slave. What this really means is Audioengine has stuffed all of the non-passive parts like the 50W per channel Class A/B amp into the Master which makes a lot of sense to me for a speaker that's sold in pairs.
