principles, as well as unique scientific insights into visualisation and applications of cell and molecular biology.

Becker's World of the Cell, Books a la Carte Edition (9th ...

Another cell biology text series - of which I owned 2 in the series - had poor diagrams/graphics and was not all that well organized. "The World of the Cell" series (which recently changed its name to "Becker's World of the Cell") starts the reader off with the basics, progresses slowly and logically, and has very good diagrams/graphics.
