Bedford and Fowler developed their Fifth Editions of Engineering Mechanics: Statics and Dynamics to answer the question: How can textbooks be restructured to help students learn mechanics more effectively and efficiently?. Based on classroom experience and feedback from users of the text, the authors developed an approach featuring the following elements:

Bedford fowler dynamics 5th edition pdf, donkeytime.org
The solutions use sums of moments more often to solve problems as compared to my professor who used sums of forces more often (when possible), but it was cool to have a second route to a solution. Decent and simple illustrations and I thought the examples were representative and helpful.
