Guidelines: Several hours before the exam, you are no longer permitted to drink nor eat. Usually, it is 12 hours before but you need to clear this out with your doctor to be sure. I really hope that everything is already clear for you. It is important that you should follow the guidelines for a successful procedure.

Can you eat and drink before an MRI? | AnswersDrive
If you are taking a blood test that requires that your liver enzymes remain normal, the safest thing for you to do would be to abstain from alcohol or limit your alcohol intake to only a few drinks in the week before your blood test. Of course my advice would always be to limit your alcohol to less than 1 to 2 drinks per night anyway.

Is it bad if you smoked/drank for the weeks before you ...
If you eat before going drinking, the mass of food being churned by the stomach will help to slow the absorption of the alcohol through the stomach walls. Basically this means that your body will...
