Megaprojects: The good, the bad, and the better | McKinsey

Rehashing your missteps over and over again isn't good for your mental health. Keep your reflection time limited—perhaps 10 minutes per day is enough to help you think about what you can do better tomorrow. Then take the information you've gained and commit to making better decisions moving forward.

11 green building materials that are way better than concrete - Inhabitat

The world needs megaprojects to deliver the economic and social goods that billions of people lack and to create the economic growth that will pay for them. But a bad project has consequences that go well beyond a specific bridge, tunnel, or sewage system. Getting it right, or at least better, is good for everyone.

10 tips for better slide decks | TED Blog

The long answer is that it depends on what you expect from your TV. Yes, the new Neo QLED TVs deliver much better black levels than the previous QLED models, but it's still not as good as the true blacks you get on an OLED display. However, the difference between the two is now closer than ever before, thanks to mini-LED backlighting.

Digital Vs. Traditional Art: Is One Better Than the Other?

In the first Guardians of the Galaxy film, the team start as a group of competing rivals, each looking to retrieve the orb containing the Power Stone for their own reason. By the end of the film, however, they've reached an easy camaraderie with one another. By the end of Vol. 2 and Avengers: Infinity War, they've become very close.. The Avengers, by contrast, tend to have more strained relations.

Creating better ads in a world with only RSAs - Search Engine Land

Because of this, traditional art pieces typically have more value than digital art pieces. 3. Increased Versatility. Digital is only one medium while traditional art methods allow you to create with different media. Creating an image with graphite compared to pigmented paint will yield different results and experiences.

Better Than Good Creating A

What Is Neo QLED? Is It Better than QLED and OLED? - MUO

The days of closing the classroom door and creating a self-contained world are over. The autonomous classroom simply doesn't exist -- and for good reason. Our students need more than just one person to guide their education. They need the added power of several brains working together for their good. Yet collaboration does not always come easily.
