Beyond the Brain is the world's premier conference series exploring research on whether and consciousness and mind extend beyond the physical brain and body. The conferences were initiated at St John's College, Cambridge in 1995, by the Scientific & Medical Network (SMN) with the Institute of Noetic Sciences (IONS).

Beyond the Brain | Further Reaches of Consciousness Research

Beyond Brain Death offers a provocative challenge to one of the most widely accepted conclusions of contemporary bioethics: the position that brain death marks the death of the human person. Chapters by physicians, philosophers, and theologians present the case against brain-based criteria for human death.
