Biology Perch Dissection Lab Answers

Perch Dissection Introduction: The fish in the class Osteichthyes have bony skeletons. There are three groups of the bony fish — ray-finned fish, lobe-finned fish, and the lung fish. The perch is an example of a ray-finned fish. Its fins have spiny rays of cartilage &/or bone to support them. Fins help the ... Continue reading "Perch Dissection 2"

Animal dissections - BIOLOGY JUNCTION

This dissection would compliment the many learning activities we do perfectly. We can't dissect our trout, but we could look into getting some perch. Thanks for sharing! My favorite part of any dissection is watching the kids who start out making the loudest ewws finish the lab with the loudest ooooohhhs.

Anatomy (Dissections) - The Biology Corner

Biology, while super informative and exciting to science junkies, can be a little dry. It can also be pretty intimidating. However, we're going to look at the light side: biology jokes! We definitely need to insert humor into biology. However, not literally into our biology. That could be painful. Or gassy. We've scoured the web ...
