Sacred Texts contains the web's largest collection of free books about religion, mythology, folklore and the esoteric in general.

#424 - Biohacking (Rebroadcast): Science for the People

1 quote from Marcus Wohlsen: 'Some upstarts always try to get closer to the source of creation by ascending to the source's level. The story of Icarus is of course a parable about the folly of such an effort. Get too close to the sun and your hubris will get you burned. Yet in the eyes of twenty-first-century capitalist culture, which worships at the twin altars of the individual and ...

Biopunk: Kitchen-Counter Scientists Hack the Software of ...

Read "Biopunk" to find out what these tattooed, wet-lab hackers are stirring up in their kitchens and garages, what inspires their often outlandish visions, and how their campaign to bring biotech's godlike power to the masses may ultimately reshape both our lives and the life forms around us." -David Stipp, author of "The Youth Pill"

His work is covered by the New York Times, Wired, Nature, and GQ France, and in the books "Makers: The New Industrial Revolution" by Chris Anderson, "Biopunk: Kitchen-Counter Scientists Hack the Software of Life" by Marcus Wohlsen, and "Maker Pro" by Maker Media.

Biopunk : DIY scientists hack the software of life (Book ...

Biopunk: DIY Scientists Hack the Software of Life by Marcus Wohlsen This book is an interesting overview of the DIY BIO movement and a quick ~200 page read. Each chapter is a new topic/interview of some part of the DIY BIO movement and the author does a pretty good job balancing bias by showing the good it can do and the safety concerns it creates.
