Getting Started with the BlackBerry Classic

When a BlackBerry PlayBook tablet is first started there is an initial setup wizard to complete before the device can be fully used. To start, swipe the screen to move past the welcome page. If using a 4G/LTE BlackBerry PlayBook, the first step is to connect to a mobile network, otherwise it will be to connect to a Wi-Fi network.

To get started using the SDK's example applications, you should configure your new domain as shown below. Ensure that the Enable User Authentication feature toggle switch is in the off position. This means users of your application don't need to authenticate using a real identity provider while you are developing and testing it.
