Automotive petrol engines. As per many other manufacturers, BMW has produced automotive petrol/gasoline engines in the following layouts: inline-four (straight four) and V8. BMW is also well known for its history of straight-six (inline-six) engines (instead of the V6 layout, which has replaced the straight-six layout for most other manufacturers).

BMW Performance Upgrades and Engine Tuning Software v2 ...

BMW has a long and interesting history. BMW was originally founded in 1916 but it didn't build or manufacture a car until 1928. During this time BMW manufactured aviation engines primarily. After WWII BMW's first production car was the 501 which was kind of a flop for the company. Towards the end of the 1950's the fate of BMW was left in the ...
