i see you are new to forum. key thing to learn...the search function is your friend. this topic has been covered many times. try a search on "trans and fluid" and you will find many answers. also invest in a shop manual for your car. the factory manual is available in pdf for on this site.

BMW 8HP Transmission Fluid Change in Just 4 Minutes

The BMW E90 manual transmission fluid is filled at the factory with lifetime fluid (green arrow). However, BMW does not define what the lifetime is. Therefore, it is a good idea to service your fluid every 60,000 miles. If you're unsure of the last service, replace the fluid as soon as possible. Doing so will extend the life of your transmission.

BMW E30/E36 Manual Transmission Fluid Replacement | 3 ...

When Manual mode is engaged, the driver can upshift or downshift through gear ranges by flipping the shift lever forward or backward. The manual transmissions are filled with manual transmission fluid while the automatic is filled with ATF (automatic transmission fluid). BMW specifies "lifetime" fluid for all its transmissions and sometimes defines lifetime as 100,000 miles.

BMW E46 Manual Transmission Fluid Replacement | BMW 325i ...

Comments: Hi, I own a 2001 BMW 325ci, with a manual transmission. It has got around 95,000 miles on it, and the shifting is real good. I am the third owner, and don't believe that it has had a transmission fluid change. I have been quoted ~\$200 for the change @\$110 per hour labor plus fluid What are your thoughts on this?

BMW DIY – Manual Transmission and Differential Fluid ...

The manual and SMG transmissions are filled with manual transmission fluid, while the automatic is filled with ATF (automatic transmission fluid). BMW specifies "lifetime" fluid for all its transmissions and sometimes defines lifetime as 100,000 miles. I think it is a good idea to service your fluid every 60,000 miles.
