24 Jul 2020 - Emergency AD issued for all CFM56 powered 737's to address engine bleed air 5th stage check valves being stuck open. 21 Jul 2020 - Boeing issue FOTB "737 MAX Return to Service Operational Readiness Flight" 23 Jul 2020 - 737 Classic nacelle fatigue cracking AD issued. 17 Jul 2020 - PEMCO B737-700FC (FlexCombi) gains FAA STC

Boeing 737 Engine Thrust

The Boeing 737 is a narrow-body airliner produced by Boeing at its Renton Factory in Washington. Developed to supplement the Boeing 727 on short and thin routes, the twinjet retains the 707 fuselage cross-section and nose with two underwing turbofans. Envisioned in 1964, the initial 737-100 made its first flight in April 1967 and entered service in February 1968 with Lufthansa.

Boeing 737 - Wikipedia

The Boeing 737 Classic is a series of narrow-body airliners produced by Boeing Commercial Airplanes, the second generation of the original Boeing 737-100/-200. Development began in 1979 and the first variant, the 737-300, first flew in February 1984 and entered service in December of that year. The stretched 737-400 first flew in February 1988 and entered service later that year.

simMarket: BREDOK3D - BOEING 737-MAX MSFS

Boeing 737 é uma família de aeronaves narrowbody bimotor turbofan, desenvolvida e fabricada pela Boeing. Criado para ser um avião com custos de operação mais baixos, o 737 tornou-se uma série com dez variantes, cujas capacidades de 85 a 215 passageiros. É o único avião narrowbody (corredor único) da Boeing em produção, nas versões -700, -800 e -900.

Boeing 737 Winglets

The Boeing 737 MAX is the fourth generation of the Boeing 737, a narrow-body airliner manufactured by Boeing Commercial Airplanes (BCA). It succeeds the Boeing 737 Next Generation (NG). It is based on earlier 737 designs, with more efficient CFM International LEAP-1B engines, aerodynamic changes including its distinctive split-tip winglets, and ...

Boeing 737 Classic - Wikipedia

Because of the 737's popularity with airlines everywhere around the world, integrating the new 737 MAX is an easy proposition. As you build your 737 MAX fleet, millions of dollars will be saved because of its commonality with the Next-Generation 737, ease of maintenance, wide availability of 737 pilots, and the global infrastructure that supports the aircraft in operation.
