Python & Pygame covers the Pygame library with the source code for 11 games. Making Games was written as a sequel for the same age range as Invent with Python.

Office TANAKA - []

In this article Syntax Excel.Workbook(workbook as binary, optional useHeaders as any, optional delayTypes as nullable logical) as table About. Returns the contents of the Excel workbook. useHeaders can be null, a logical (true/false) value indicating whether the first row of each returned table should be treated as a header, or an options record. (See below for more details on the options record.)

The theory of optimal control is concerned with operating a dynamic system at minimum cost. The case where the system dynamics are described by a set of linear differential equations and the cost is described by a quadratic function is called the LQ problem. One of the main results in the theory is that the solution is provided by the linear-quadratic regulator (LQR), a feedback controller ...
