

## Borchi Gel L 75 N Borchers Home

Eventually, you will categorically discover a new experience and expertise by spending more cash. still when? get you put up with that you require to get those every needs behind having significantly cash? Why don't you try to get something basic in the beginning? That's something that will lead you to understand even more on the subject of the globe, experience, some places, subsequent to history, amusement, and a lot more?

It is your entirely own period to play-act reviewing habit. accompanied by guides you could enjoy now is borchi gel l 75 n borchers home below.

offers the most complete selection of pre-press, production, and design services also give fast download and reading book online. Our solutions can be designed to match the complexity and unique requirements of your publishing program and what you seraching of book.

*Borchi® Gel 3739 - Borchers - datasheet*

*Borchi® Gel L 75 N . OMG Borchers . Borchi® Gel L 75 N by OMG Borchers is a hydrophobically modified ethoxylate urethane (HEUR). Acts as a non-ionic liquid rheology modifier and medium shear rate thickener. ... Borchi® Gel L 76 by OMG Borchers is a hydrophobically modified ethoxylate urethane (HEUR). Acts as a non-ionogenic rheology modifier ...*

*Borchi® Gel A LA - Borchers - datasheet*

*Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust). Sweep up or vacuum up spillage and collect in suitable container for disposal. Local authorities should be advised if significant spillages cannot be contained. Page 3 of 9 6.4REFERENCE TO OTHER SECTIONS: For handling advice see section 7.*

*Borchi® Gel 0435 - page 3 of 14 Borchi® Gel – Associative thickeners Product overview What sets associative thickeners apart from all other thickener systems is their ability to form non-covalent networks with other components of the coating – e.g. pigments, binder particles or fillers – in an*

*Borchi Gel L 75 N*

*Borchi® Gel L 75 N is a polyurethane based, non-ionic liquid thickener that is free of alkylphenol ethoxylates (APEO), organo-tin compounds and VOC's. It develops viscosity stability in waterbased coatings mainly in the medium shear range between 1000 s-1 to 10000 s-1 depending upon the binder type and other ingredients in the coating.*

#### 1. IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE ...

Borchi® Gel 0621 is easy to use and can be added at any stage of the formulation. The best incorporation method is to add it after the pigment/filler dispersion but prior to being let down. Under low-shear mixing conditions a pre-dilution in water or a ... Borchi® Gel L 75 N.

Borchi® Gel 0621 | Borchers

Acts as a wetting agent. Improves wetting of coating over plastics, resinous wood surfaces and steel contaminated with oil/ grease. Reduces surface tension of water-based paints. Soluble in butyl glycol, butyl diglycol, ethanol, 1-propanol, 1-methoxy 2-propyl acetate and water. Partly soluble in N-methyl pyrrolidone.

Borchi® Gel L 75 N by Borchers, A Company of OMG - Paint ...

Borchi® Gel L 75 N by Borchers is a hydrophobically modified ethoxylate urethane (HEUR). Acts as a non-ionic liquid rheology modifier and medium shear rate thickener. Made with aliphatic isocyanates. Contains 50% active in water. It is free of alkylphenol ethoxylates (APEO), organo-tin compounds and VOC's.

Borchi® Gel A LA Page 1 of 2 Thickener for aqueous paint systems Description Borchi® Gel A LA is a polyacrylate-based thickener in the form of a solution of anionic acrylic polymer in water. Characteristic data Appearance: high-viscous, slightly cloudy liquid

Borchi® Gel L 75 N | Borchers

thickening action of Borchi® Gel L 75 N may be reduced by polar, water soluble film forming solvents such as alcohols, glycols and glycol ethers. However, low polar solvents such as butyl diglycol acetate and Texanol® will increase the viscosity effect. Storage Protect from the effects of weathering and store at temperatures between 5 and 30 °C.
