Susan Fiske

Susan Tufts Fiske (born August 19, 1952) is the Eugene Higgins Professor of Psychology and Public Affairs in the Department of Psychology at Princeton University. She is a social psychologist known for her work on social cognition, stereotypes, and prejudice. Fiske leads the Intergroup Relations, Social Cognition, and Social Neuroscience Lab at Princeton University.

Social Beings: Core Motives in Social Psychology 4th ...

"Remedies include tracking one's own questionable research practices" (Susan T. Fiske) In 1959, Sterling observed that results sections of psychological articles provide no information. The reason is that studies nearly always reject the null-hypothesis. As a result, it is not necessary to read the results section. It is sufficient to read the predictions that are...

Professor Fiske's research addresses how stereotyping, prejudice, and discrimination are encouraged or discouraged by social relationships, such as cooperation, competition, and power. The research begins with the premise that people easily categorize other people, especially based on race, gender, age, and class.

Stereotype content model - Wikipedia

Focusing on the five core social motives—to belong, to understand, to control, to self-enhance, and to trust, author Susan Fiske provides a highly readable and engaging narrative flow that integrates material showing the field's relevance to human problems and incorporates motivation, social evolution, and culture, not as after-thoughts, but as intrinsic features of the text.

(PDF) Stereotyping, prejudice, and discrimination

The model was first proposed by social psychologist Susan Fiske and her colleagues Amy Cuddy, Peter Glick and Jun Xu. Subsequent experimental tests on a variety of national and international samples found the SCM to reliably predict stereotype content in different cultural contexts [2] [4] and affective reactions toward a variety of different groups. [5]
