Weber Carb Adjustment Thread | IH8MUD Forum
Hi, Forman, always great to see your posts and topics! The 4.2L Jeep inline six engine from 1981-90 is an emissions maze. The fuel/spark/Evap systems overlap, including the BBD Carter carburetor with Sole-Vac and a Mixture Control Stepper Motor, the emissions control circuits, the Pulse Air to the catalytic converter and the ECU regulated ignition.

Off Your Carburetor - Dirt-Tuning the Motorcraft 2100 ...
The only adjustments to this carb are the idle mixture and the idle speed right? I couldn't get the jeep to idle at altitude. It would idle too low and die so I would turn up the idle speed to keep it running and it would idle ok for a while and then seem to go down on it's own and die again. ... Carb tuning/timing for high altitudes. I don't ...

Carb tuning the Jeep engine
If you can save for a little longer you'll be really happy with going fuel injected. There is Howell fuel injection (by directly from them and you'll get great service and help), Fitec has a new 2 barrel setup that will work great for your jeep (cheaper and easier to install than Howell), and you can always pull a junkyard setup from an early 90s chevy truck with a v6.

Carb tuning/timing for high altitudes - Off-Road Forums ...
