CCNP Security - Cisco
In building your CCNA Security lab, the first thing you need to consider is picking up a router that can support the IOS with the feature set to cover the exam objectives. Many students assume that the older 2500, 2600 or even some of the 2600XM 12.4 series routers which support IP/FW/IDS Plus or IPSEC 3DES will do the job.

CCNP Security Advanced Lab Kit ...
For CCNP Security it depends. If you do this Exam last you will probably also need FirePOWER IPS and/or ASA with FirePOWER (the actual version includes ASA CX). The FirePOWER IPS is available as an virtual appliance, same for the FirePOWER Management server. Perhaps it makes sense to get one piece of hardware here, the ASA 5506-X with FirePOWER.
