What do you Know? 1. Label the three images below as isotonic/ hypertonic/ hypotonic (with regard to the solution the cell is placed in)

Biology 1 & 1A

Understanding the concepts of diffusion and osmosis is critical for conceptualizing how substances move across cell membranes. Diffusion can occur across a semipermeable membrane; however diffusion also occurs where no barrier (or membrane) is present. A number of factors can affect the rate of diffusion, including temperature, molecular weight, concentration gradient, electrical charge, and distance.
