With the Balancing Chemical Equations Super Value Activity Kit, students use chips as models for atoms and molecules, counting and manipulating the "atom" chips until all atoms are conserved. Students then determine the final equation.

Balancing Equations - Flinn Scientific

Balancing chemical equations is a math-like skill that can be achieved through repetitive practice. Start out with simple chemical equation and gradually build to greater difficulty. Often students need to see the process many times until an 'ah-ha' moment occurs. I first teach the concept of balancing chemical equations (see video below).

Balancing Equation Worksheet Answer Key

In this lesson, students are introduced to the idea of balancing chemical reaction equations and conservation of matter by using molecular models. Students are developing and using models (SEP 2) in order to fully understand conservation of matter--in order for a chemical reaction to make products, the atoms needed must have come from somewhere ...
