Process Equipment Cost Estimating by Ratio and Proportion

The chemical engineering plant cost index (CEPCI) is widely used for updating the capital costs of process engineering projects. Typically, forecasting it requires twenty or so parameters. As an alternative, we

Archives - Chemical

Engineering

Chemical plant cost

indexes are

dimensionless

numbers employed to

updating capital cost

required to erect a

chemical plant from a

past date to a later

time, following

Acces PDF Chemical Engineering Plant Cost Index Cepci

changes in the value of money due to inflation and deflation.

Since, at any given time, the number of chemical plants is insufficient to use in a preliminary or predesign estimate, cost indexes are handy for a series of management purposes, like long-range planning,
