#### Balancing chemical equations (how to walkthrough) (video ...

Chemical reactions have the same number of atoms before the reaction as after the reaction. Balancing chemical equations is a basic skill in chemistry and testing yourself helps retain important information. This collection of ten chemistry test questions will give you practice in how to balance chemical reactions.

#### Ultimate equation answers

chemical equation is defined as the short-hand representation of a true chemical reaction with the help of symbols and formula. All the atoms and their valencies should be balanced on both the sides.
